Housing

Welcome

We are pleased that you are interested in becoming a part of FUNGLODE/GFDD's community in the Dominican Republic!

This brochure provides information summarizing our housing facilities and services offered to interns and fellows year-round.

The demand for space in the student residence is very high, so be sure to submit your housing request along with your initial internship application. Find updates on housing, as well as a gallery of pictures on the InterDom website at: www.interdominternships.org

It is all about location!

InterDom offers modern and comfortable student residences with wireless Internet strategically located in a central downtown neighborhood of Santo Domingo. The residences are close to some of the most important cultural centers of the city, and just 10 minutes from the historic Colonial Zone.

They are a short walk from multiple public transportation routes in a major student and commercial district. Nearby are 3 university campuses and many restaurants, banks and shops, and minutes away from the historic and cultural zones, public transportation, restaurants and shopping...

Feeling at home...

Most InterDom interns are lodged in apartments administered and maintained by FUNGLODE/GFDD and located steps from the Foundation. These apartments provide students with a private bedroom and bathroom and a spacious shared living area and kitchen. All rooms are equipped with ceiling fans for comfort.

The residences are designed so that interns can take advantage of the opportunity to make friends with other interns from all parts of the world, exchange ideas and share points of view, all the while maintaining a sense of privacy and cooking to your taste!

It is our hope that you will find the available housing option comfortable, convenient, and conducive to your academic and professional success.
